

Peak Oil on Four Corners, ABC TV

The Four Corners show on peak oil was on July 10th. Forum panellists were Bruce Robinson of ASPO Australia and Andrew McNamara, Labor MP for Hervey Bay QLD. The forum is [here](#). The transcript is available, and the quote of the story is ABARE's Dr Brian Fisher's statement to the Senate committee hearing. "If the price of eggs is high enough, roosters will start to lay". Economists seem to overlook the physical constraints of natural forces, believing that market forces are omnipotent. See our submission 135B above to the Senate on ABARE's forecasting track record.

Those who missed the 4-Corners programme can watch it online at the ABC website.
